-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's RCE submission filed on December 9, 2005 has been entered. The previous rejection is withdrawn pursuant to the Amendment and REMARKS contained within the RCE.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-8, 15, 17-20 and 35-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moore, US 6,847,938 in view of Miloslavsky et al., US 6,981,020.

Moore discloses a server, e.g. 28, 32, 36, a router, e.g. 38, with a user performing a transaction with multiple independent transaction entities where notification may be completed by e-mail.

Miloslavsky discloses a network, e.g. 1234, and a router, e.g. 1230, which determines how notification information is disseminated.

To have provided the router to determine how notification information is disseminated for Moore, would have been obvious to one of ordinary skill in the art in view of Miloslavsky. The motivation for having done such is that it was common knowledge in the computer network art to have had a router determine where information is directed. It is further noted that with the computer network art a server may act as router. The dependent claims are within the purview of one of ordinary skill in the art in view of Moore, in view of Miloslavsky.

4. Further pertinent references of interest are noted on the attached PTO-892.
